

Volunteer Opportunity

"We don't just make repairs. We give people security and enrich their lives."

George,
Fix-It Service Volunteer

Join the team that powers *JFS Fix-It*

We're a team of volunteers. We fix things around the house to help prevent falls and give older adults safer homes. We proudly operate at no cost to the client.

Make a difference – with just a few hours a month

Some of us have experience with plumbing, electric, or carpentry—but you don't need those skills to join us. Most of the repairs we make are small – installing grab bars and smoke detectors, replacing lightbulbs, etc. – and we'll train you to do them. **We'll provide you with tools and mileage reimbursement, too.** And if a job gets too big, our veteran Fixers are ready to jump in and help you.

JFS Fix-It Service

Free minor home safety repairs and modifications for older adults

Serving the Entire Community
